## PRAYER

**REJOICE IN THE LORD ALWAYS; AGAIN I WILL SAY, REJOICE. LET YOUR REASONABLENESS BE KNOWN TO EVERYONE. THE LORD IS AT HAND; DO NOT BE ANXIOUS ABOUT ANYTHING, BUT IN EVERYTHING BY PRAYER AND SUPPLICATION WITH THANKSGIVING LET YOUR REQUESTS BE MADE KNOWN TO GOD.**

PHILIPPIANS 4:4-6

- Praise God who supplies every need according to His glory and knows what is best for us - better than we could ever know for ourselves or others. Let us praise God not only when He answers.
- Let us praise knowing that He will faithfully answer those we never cease to honor him.
- Pray for healing and unity in the Asian American community and for the protection and guidance over our KCC body and family.

*Loving Father, we rejoice and sing your praises every day. Worshipping and spending time with you renews and refreshes our soul. Teach us to share your peace and restoration with the broken and hurting people of this world. Give us faith that empowers us to rejoice and praise you not only after you have answered but before you answer our prayers. We know you will supply our every need, so teach us to trust in you and wait in prayer. Please place your healing hand over the Asian community in America, and put our KCC body under the protection of your wing. Thank you for shining your light and glory on us, and thank you for being our motivation and purpose for each day. We pray in thanksgiving and love, Amen.*

## What are you studying and why?

I am studying biology as my major on the pre-health track. I actually really enjoyed my biology classes in high school which made me want to major in it. During freshman year, I decided to go pre-med and biology overlaps with many of the needed courses, so it was very convenient. I also have a minor in business which I am surprisingly enjoying quite a bit despite the hassle and questioning of costs and benefits of a business minor.

## What do you wish you had known before starting school?

I wish I had known that high school and college are so different. There is so much more freedom which comes with good and bad. Time management is all under your reigns. High school kind of walks through everything with daily classes and assignments that guide the baby steps throughout the classes while college is really a lot more independent learning.

## Tell us about your current challenges. How can we pray for you?

I am currently struggling to decide on my life path. I am currently on the health profession track but it is hard to know if I am truly passionate about it. I am seeking for guidance and peace about the future.

## What are your spiritual gifts and how do you think God uses them?

I think my spiritual gift is mercy/empathy toward others and I think God is using it as I lead a small group for a campus fellowship to be able to accept others and try to understand them to be able.

## What is something about you that might surprise others?

I am actually ~weird~ according to Yeojun. I am a hidden weirdo.

## What do you worry about the most? What do you find the most encouraging?

I worry about my current circumstances and relationships with other people a lot. I am a naturally lazy person and a people pleaser so I tend to worry about my actions related to those a lot.

## What do you find the most encouraging about the future?

The most encouraging thing about the future is that covid era will finally be over and we'll be free to enjoy life like before. It encourages me that we'll be able to get off zoom, online learning, and being cooped up inside all day. I am so ready to attend in person events and see people without masks and social distancing I've definitely realized how much I had taken for granted before and can't wait to enjoy normal life again.
